

## Terminal Expansion, Parking Garage & Sky Walk

### Terminal Expansion

- The Facility
  - Groundbreaking began on July 1, 2024.
  - Goal to complete the project by the first quarter of 2027.
  - \$155.9 million budget.
  - Expansion is funded by local, state and federal funds.
    - Expansion includes:
      - An additional four gates to provide an improved terminal experience.
      - Further expansion of the aircraft apron.
      - Reconstruction of the existing aircraft apron.
      - Creating a pipeline to treat aircraft deicing fluid runoff.
      - New concessions area after security.
      - Additional seating for passengers.
      - Comfortable seating area for friends and family waiting for arrivals.
      - Redesign of men's and women's restrooms.
      - Additional family restrooms.
      - Designated service animal relief area.
      - Children's play area.
      - Nursing rooms.
      - Sensory room.
      - Expanded security checkpoint.
      - Reduction of EUI energy usage by 15.5%.
      - Upgraded technology and security.
      - Improved signage and wayfinding.
- The Design

- Captured the essence of North Dakota and the vibrant Fargo-Moorhead (FM) region.
- Rooted in the traditions of the Midwest, featuring a modern design and earth tone color palate.
- Included mixed materials, such as wood, metals and grass-like features give Hector Airport its authentic feel.
- Integrated one-of-a-kind and interactive art from local artists in the FM area.

### **Parking Garage & Skywalk**

- The Facility
  - Scheduled to be complete in August 2025.
  - Completed total cost of \$47 million.
  - Designed four floor structure with roof.
  - Provided approximately 1,000 new parking spaces.
  - Enclosed walkway connecting to terminal.
